

GDP per capita (current US\$) - UK vs US

World Bank national accounts data and OECD National Accounts data files

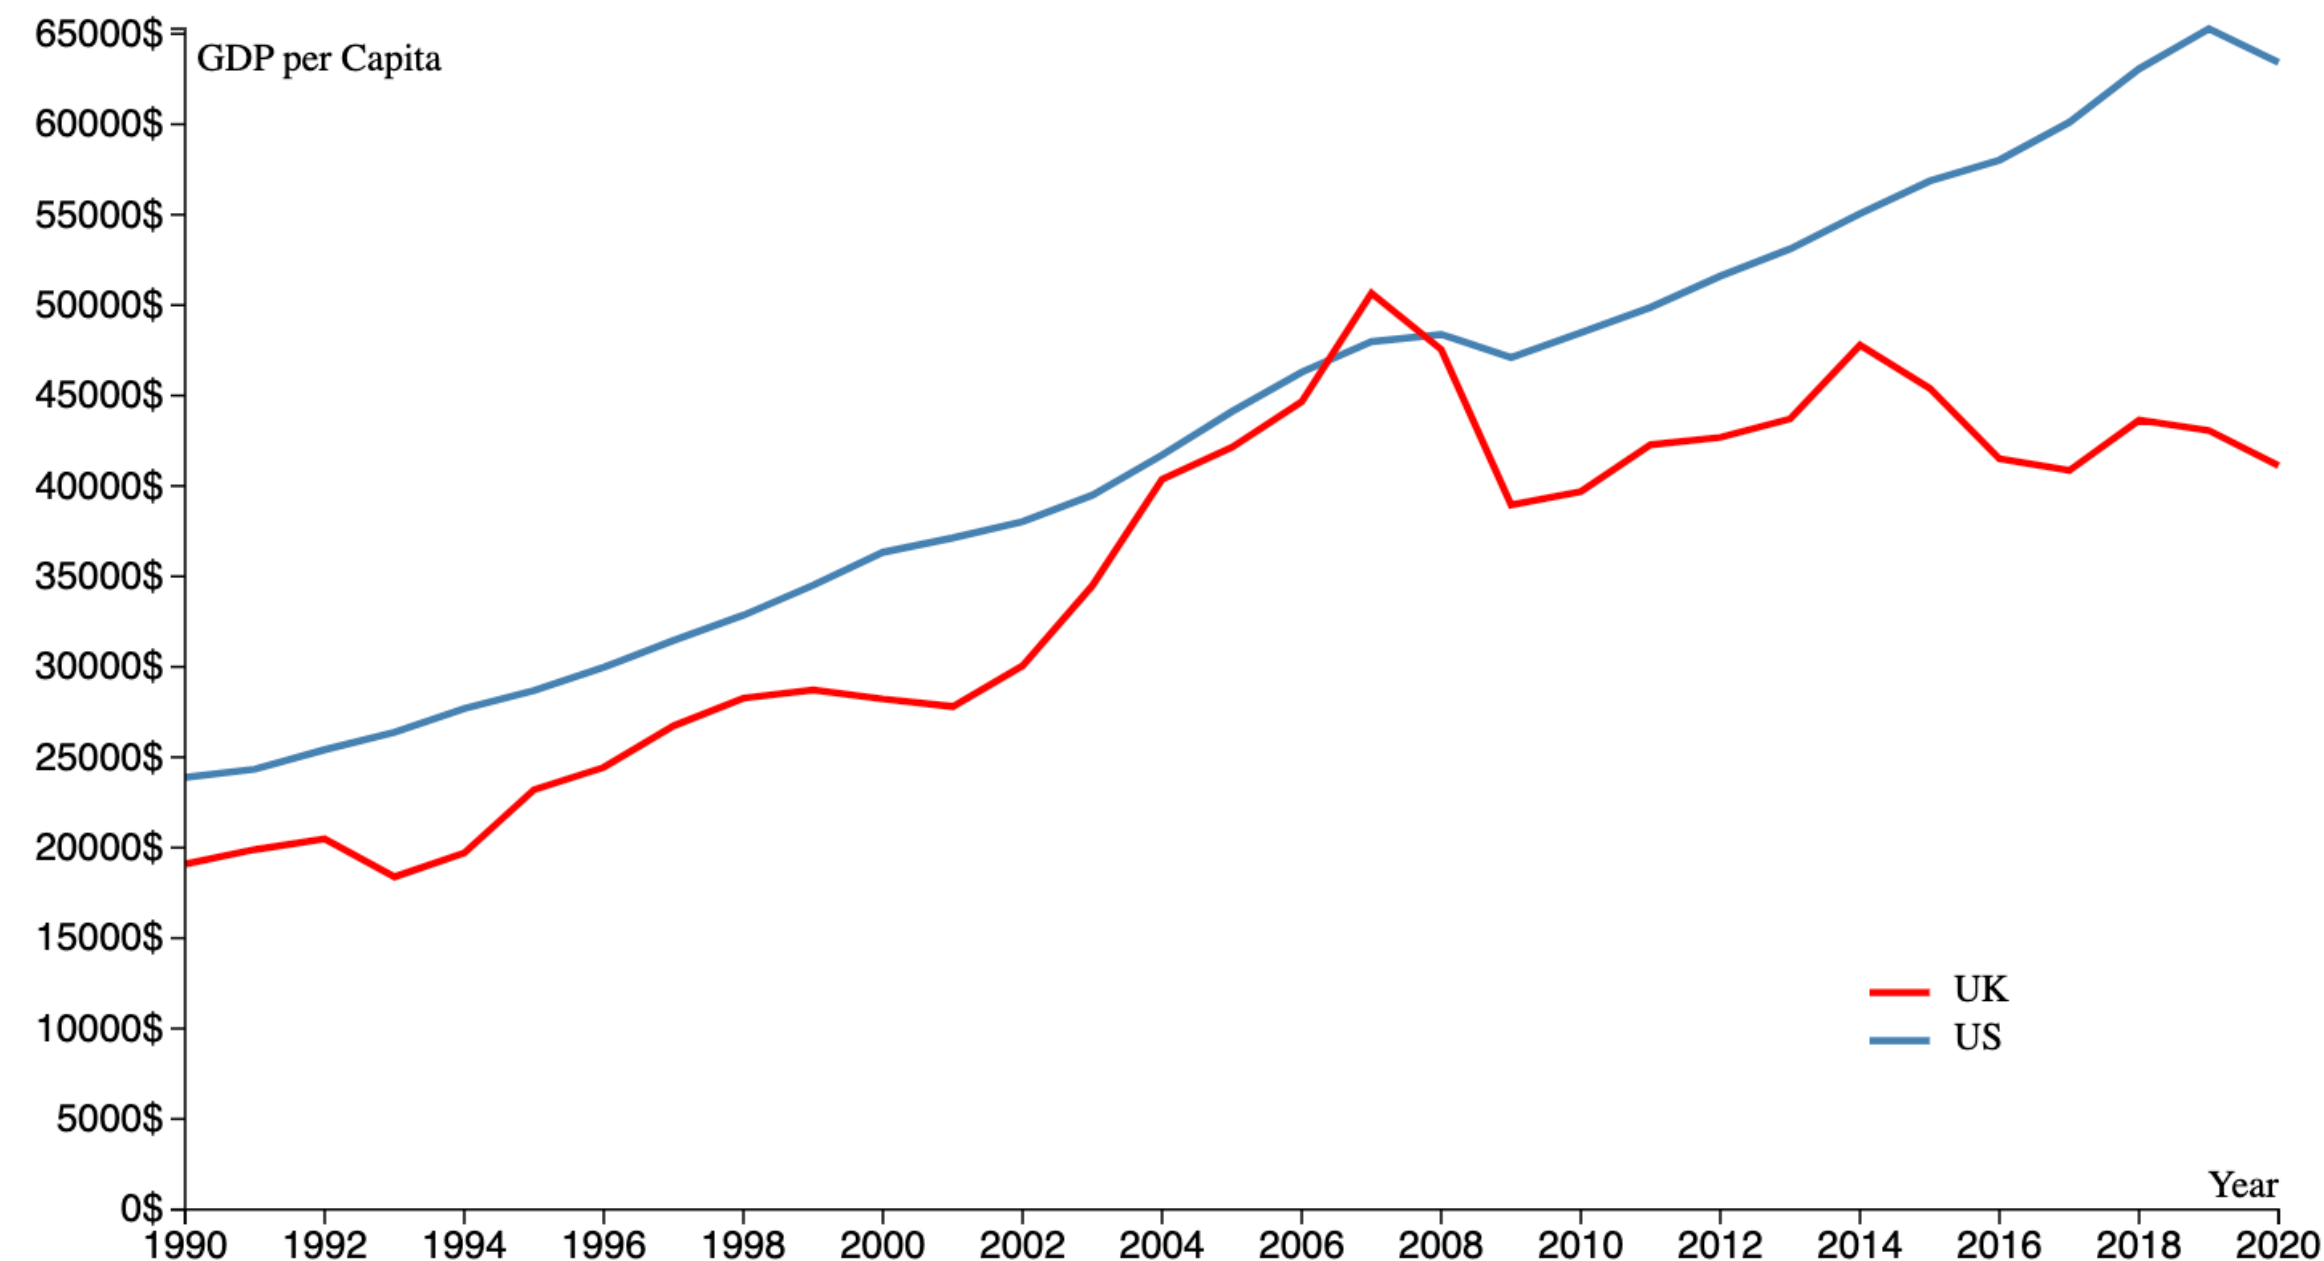

1)

This is a BAD visualization.

**The Y-AXIS is misleading
as its origin is set to 15000\$ rather than 0\$.**

GDP per capita (current US\$) - UK vs US

World Bank national accounts data and OECD National Accounts data files

2)

**We can adjust this
by setting its origin to 0.**
