90th Percentile of the Electricity Producers in the World

**90th Percentile of the Electricity Producers in the World**

90th Percentile of the Electricity Producers in the World

1)

This is a BAD visualization.

The visual elements are overlapping and the labels are not readable.

2)

We can change the CHART SCALE to study the main data pattern and to better lay the visual elements out.

3)

We can also jitter the visual elements

to be able to distinguish and read them.
